

Executive Payroll System EPS

Executive Payroll System (EPS) is Byte's integrated gross-to-net payroll system for executive and other employees where confidentiality is important. Byte offers unlimited confidential payrolls with the EPS option. Payroll can be set-up to handle single plants to multi-plant central payroll configurations. The Executive Payroll module prints payroll checks, handles direct deposits, and keeps track of payroll history & cost history. Your organization's entire monthly, quarterly and yearly reporting is possible through EPS so that payroll confidentiality is kept.

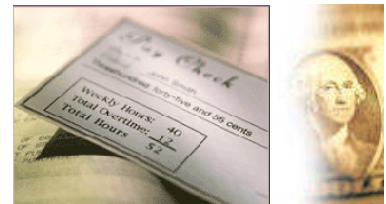

Benefits

- **Separate Confidential Payrolls:** With EPS, Byte offers multiple confidential payrolls with separate pay cycles.
- **Combined Reporting:** Monthly, quarterly & yearly reports can be run using our SnapShot feature, where the entire organization's reports are generated from one of the confidential payrolls, keeping confidentiality.
- **Unlimited Pay History:** Byte captures unlimited payroll history enabling payroll administrators to pull up past payroll earnings by employee pay period by pay period.
- **Attendance Reporting:** The system has an attendance database for tracking absences.

Powerful Automated Functions

Payroll (PAY) provides numerous functions to help you increase the efficiency and accuracy of your entire operation:

- **Absentee analysis:** The system reports employee attendance including excused and unexcused absences with the corresponding reason.
- **Gross to net payroll:** Take payroll all the way to Net including 401K, company match reports, cafeteria plan, insurance, and other user defined deductions and taxes. .
- **Print Checks:** Print payroll checks on your company's pre-printed payroll check forms. Tractor fed or laser options are available.
- **Direct Deposit:** Direct deposits can be set up for as many as 10 different accounts per employee.
- **Payroll SnapShot:** For monthly, quarterly, and yearly reporting and W-2 processing. This function takes a snapshot of payroll for a defined period and then allows you to continue your payroll process so you can come back and perform certain functions at a later time. This snapshot will not only include the executive information, but also the regular payroll information.
- **Export to 3rd party payroll processing entity:** Process gross payroll and export to another payroll system (i.e. ADP).
- **Export Payroll Information into Accounting:** Once payroll is complete, simply export the payroll information into your accounting system.
- **International Payroll:** Byte's PAY module handles gross to net calculations and reporting in several countries including Honduras, El Salvador, Nicaragua, Costa Rica, Puerto Rico, and the Dominican Republic.
